

At a glance

The damp-proof luminaire for simple refurbishment solutions

- Existing mounting points can still be used due to freely positionable mounting clips
- In/out wiring possible with separately available accessory (Double PG head)
- Robust, impact-resistant PC housing (IK08/IP65)
- For -20° C to +40° C ambient temperatures
- Four lumen packages
2000 lm / 4000 lm (1.2 m length)
3400 lm / 6000 lm (1.5 m length)

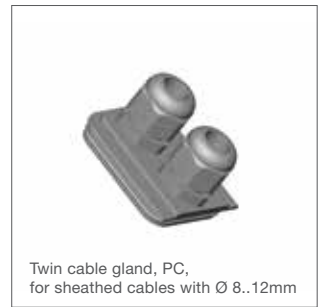

-57% energy
compared to traditional
louvre luminaires

Custom-designed for functionality

PrevaLight® Damp-Proof Gen.2 is the robust, long-life lighting solution for standard applications in damp and dusty surroundings such as industrial halls, warehouses, parking garages and corridors.

Already existing installations with conventional damp-proof luminaires are quickly and simply upgraded thanks to the easy mounting of PrevaLight® Damp-Proof. The modern LED technology also enables immediate light without startup times and with simultaneous savings during operation.
