

Industrial lighting by OSRAM

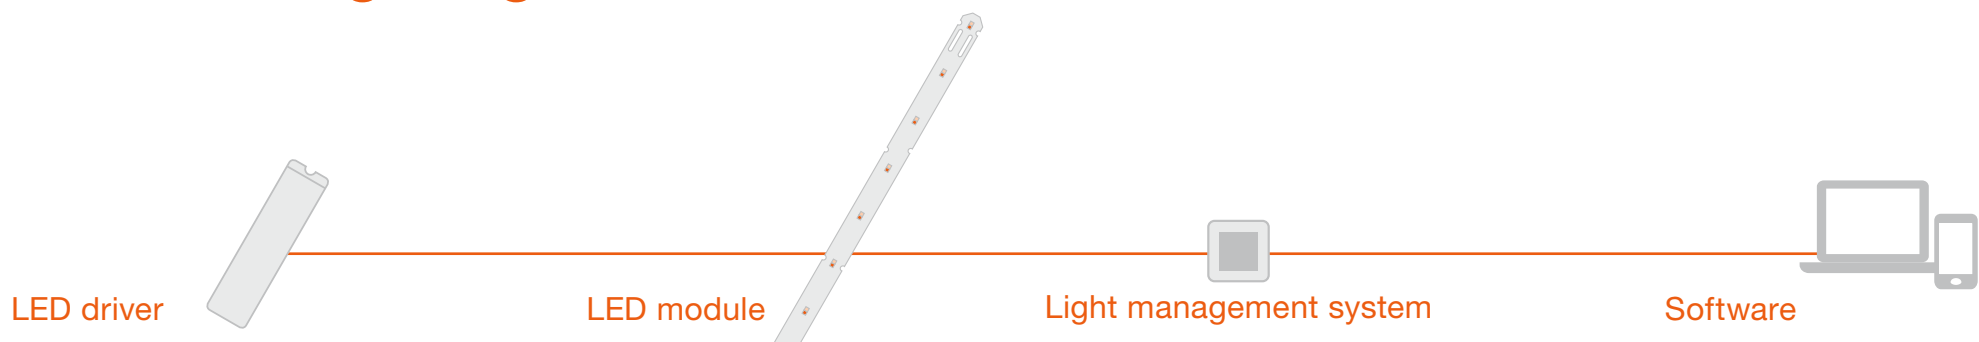

The simple path to modern and smart lighting solutions

OSRAM offers a flexible toolkit for any type of indoor industrial lighting project. There are numerous reasons to upgrade industrial lighting. From new installations to refurbishments – with OSRAM, you can make it happen. Wired or wireless installations? It's a crucial decision to make when lighting warehouses, production lines or other industrial settings, as both have their advantages.

Light is OSRAM

LED driver

- OT Intelligent Industry – DEXAL (non-isolated)
- OT Intelligent Industry – DALI (non-isolated)
- OT Wi D NFC CA L Coming soon
- OT Wi D NFC BL L Coming soon
- OT Wi NFC CA LP Coming soon
- OT Wi NFC BL LP Coming soon
- OT constant-current LED power supplies with DALI (IP20)
- OT constant-current LED power supplies with DALI (IP67)
- OT 2DM NFC IP67 Outdoor
- OT constant-current LED power supplies with 2DIM/high power (IP67)
- OT 2DIM UNV IP67 outdoor
- ICUTRONIC IT FIT D CS L (non-isolated)

LED module

- PrevaLED Linear IND
- PrevaLED Linear
- GINOLED HO Module G2 - only APAC
- BASIC Linear

Software / Apps

- www.osram.com/Software
- Tuner4TRONIC box programming / tool chain / simple current
- HubSense web app / mobile app

Light management system

- Qualified Bluetooth Mesh DEXAL module
- QBM 220-240 LS/PD HB
Independent installation can be connected wirelessly to the QBM luminaires or with DALI cable to DALI luminaires
- DALI-2 sensors and couplers
Certified DALI-2 devices, perfect in combination with DALI PRO 2 IoT
- DALI PRO 2 IoT
Interconnectable 2-channel DALI controller with IoT interface
- Highbay sensor
Light and motion sensor for high-bay applications
- DALI COUPLER LS HIGHBAY
- Lowbay – NEW on/off sensor
- QBM DALI CONV LI +
Qualified Bluetooth Mesh DALI converter
- DALI COUPLER HF G2 +
- HF LS LI
Luminaire-integration sensor for IP-rated luminaires
